

Production Operator

Based: Fife, Scotland – KY5 9HR

Salary: c. £23,000 per annum including shift premium

Hours per week: 40 hours per week worked via a shift pattern

Job description

The Company

Based in Lochgelly, Fife, Clas-SiC Wafer Fab Limited is a dedicated manufacturing facility for Silicon Carbide Power Semiconductors and we urgently require keen, enthusiastic Production Operators to join our small team, where an inclusive and learning culture is the norm.

Our values including 'Customers First'; 'Honesty & Integrity'; 'Open Communication'; and 'Teamwork' help us to focus on what matters for our customers and our employees, every day.

The Candidate

You'll have a 'can-do' attitude, loads of enthusiasm and be keen to learn new stuff within a supportive and experienced team where commitment, loyalty and hard work are rewarded with a **competitive salary and shift premium** and the opportunity to grow with an innovative and forward-thinking company in the semiconductor industry.

Manufacturing experience would be an advantage but not essential as long as you have the right 'can-do' attitude as full, on-the-job training will be provided. The successful candidate **MUST** be open and willing to learn through training and continuous improvement. If you are able to demonstrate that you have some experience working within a multi-level, multi-discipline team, that would be great!

You must be able and willing to work dayshift, nightshift and backshift in a clean room environment wearing full PPE, with the very occasional weekend overtime thrown in too.

Please see below an example of how the shift pattern could look:

Dayshift

Monday to Thursday 07:00 - 16:15 and Friday 07:00 - 12:00

Nightshift

Monday to Thursday 22:00 - 08:00

Backshift

Monday to Thursday 12:30 - 23:00

If the above description sounds like you, then don't waste any more time - apply now as we'd love to hear from you.

Job Type: Permanent

Expected Start Date: ASAP

Salary: c. £23,000.00 per year including shift premium

Previous applicants need not re-apply.
